Murat Ferhat Derya
Junior Data Scientist & Back-end Developer

Summary

I'm a final-year Computer Science student, passionate about **Data Science**, AI, **LLM**, **AI agents**, and **Backend technologies**.
  I've built several end-to-end **machine learning** projects delivered as user-applications, and I'm continuously exploring the intersection of intelligent systems and automation.
  You can find my full **portfolio**, projects, and more about my background—such as my Exchange Program in the USA, my **YouTube** channel, leadership roles, and other experiences on my **Personal site.**

Work Experience

Data Scientist, Arkenom Teknoloji (Internship)

Worked in the AI Chatbot department, focusing on:
- Python-based data analysis and preprocessing
- Statistical methods and **Time series Forecasting**
- **Deep Learning** techniques, including **CNN** architectures

Data Analyst, OptiWisdom (Internship)

- Google Ads data reporting and performance tracking
- Web scraping for competitor and market data
- Writing and optimizing queries in MS-SQL

FEDAI, Youtube Channel
Creating beginner-level software tutorials and educational videos:
- Video editing
- **Public speaking** and **technical communication** skills through on-camera teaching

Work and Travel (United States)

Dishwasher/Busser
Lived in the U.S. for 4 months as part of the Work and Travel program.
Worked in various roles such as dishwasher and baker.
- Improved English speaking skills
- Gained experience working with multicultural teams
